

Starter Level Horse Agility Course

All movements are to be done on a loose lead rope. A tight rope between obstacles will also cost a point.

Note: Placement and positioning of obstacles may be different in real life.

1 Hula Hoops

Horse steps into one hula hoop with both front feet. This must be a clean step in for maximum marks.

2 Wait

Handler holds rope and goes to the other hula hoop which is 12 ft away and waits for a count of 5 seconds before returning to the horse.

3 Back Over Pole

Horse steps over the ground pole with both front feet, then backs up over the pole. Any backup method except pulling on the leadrope. Points lost if any of the horse's feet touch the pole at any time.

4 Scary Corridor

A collection of scary objects create a corridor which the horse must walk through safely with handler.

5 Jump

Horse must jump, handler can choose to jump or not. Handler must pass the jump at the same time as the horse.

6 L Bend Turn

Horse to pass through at a walk. Handler can be anywhere to direct the horse.

7 Curtain

Horse and handler must pass through the curtain safely at a walk.

8/9 Pole Corridor

Walk through and back up. Horse to walk through the corridor until the front feet are just beyond the end, then back up, all without touching the poles. Any backup method except pulling on the leadrope.

10 Tarp

Horse and handler must walk over the tarp together.

Horse Agility

Saturday, July 30

Classes:

97. Horse Agility, 17 & under

98. Horse Agility, 18 & over
